

Through concise and implicit expressions and cheerful colors, artist MAWZ expresses individuals' concerns on societal and cultural phenomena. The images he creates are the condensation of his voice which the density of his saturated expressions has the power to capture people's attention. The artist is actively crossing the boundaries of genres such as painting, graffiti, drawing, toys, and graphic images. Collaborating with brands such as Vans, Volkswagen, Perrier, and SM Entertainment, as well as actively creating his works, the artist Maws is constantly communicating with the public with his own poetic language.
